Underbody Coating

NEW

JLM Lubricants

At JLM we are committed to making a range of service products that the workshop professionals can rely on to do the job quickly, thoroughly & professionally. JLM products are manufactured to exacting TUV standards, guaranteeing quality products at a competitive price

Product Information

JLM Underbody Coating is based on synthetic resins and rubbers. This quick drying paint is especially developed for long-term gravel & rust protection. Excellent sound deadening properties.

Use

Shake the can well. Apply to a clean, dry, rust free surface using air pistol with 5-7 bar. Important: Do not spray on the exhaust or brake systems, motor or movable parts. After use, thoroughly rinse the pistol with solvent. Remove excess with a solvent such as White Spirit.

Product details

Art.-Nr:	J04600
Barcode:	8718274350081
Pack size:	1000 ml
Carton quantity:	12
